This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

+ *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
+ *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
+ *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
+ *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

About Google Book Search

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. PREFACE

This book was prepared under authorization of the Milwaukee Board of School Directors for use in the public schools of Milwaukee. It contains work for ten semesters, the words being suited to the comprehension and experience of the child in each half year of his school life in the elementary grades above the third.

Each lesson represents a day's work. If the teacher finds that the pupils can do more than is prescribed, he should weave in review words. In addition, he should have pupils copy, at intervals, on the blank pages following each semester's work, geographical names, proper nouns, abbreviations, and any other words not contained in the book which children are likely to misspell, or to which they need to give particular attention.

Dictation lessons should be supplied by the teacher from the reader or from other text-books.

Special stress is laid upon the spelling of the plurals of nouns, of participles, and of the past tense forms of verbs; also upon the use of appropriate adjectives and adverbs in connection with words which they modify.

The use of related words has been made a special feature of this book, for words used in proper relation to other words impress themselves upon the pupil and get into his vocabulary without conscious effort on his part. The book is more than a speller; it is intended to be a vocabulary builder.

The presentation of many easy words has been avoided. No words in this book should be omitted. It is the duty of the teacher, in assigning the lesson, to present the inherent difficulty of each word.

General rules of spelling should be pointed out when-

ever the occasion arises. It is suggested that nearly all of the isolated words be used by teachers and pupils in easy phrases.

Pupils should pronounce accurately by syllables, laying stress upon the syllable rather than upon the individual letters composing the word. The dictionary should be consulted freely for the pronunciation of words and their meanings.

The words used in this speller were selected from lists of usable and frequently misspelled words submitted by the teachers of the different grades of the public schools of Milwaukee; the lists were compiled by Assistant Superintendents Albert E. Kagel and Frank Kroening, in consultation with Superintendent of Schools Carroll G. Pearse.

Important Rules for Spelling

1. When a monosyllable, or a word accented on the last syllable, ends in a consonant preceded by a single vowel, double the consonant when adding a suffix beginning with a vowel; as, swim, swimmer; defer, deferred.

   When the accent is not on the last syllable, the consonant is not doubled; as, travel, traveled; differ, differed; cancel, canceled.

2. When a word ending in a single consonant is lengthened by the addition of a syllable that begins with the same consonant, both consonants are retained; as, careful, carefully; open, openness; stubborn, stubbornness.

3. When words ending in silent *e* are lengthened by the addition of a suffix beginning with a vowel, the *e* is dropped; as, tribe, tribal; come, coming; sue, suing.
